XOLEIL
SPA VILLAGE

Introduction

Today's spa philosophy is moving towards prevention, rather than mere pampering. The focus has shifted from self-indulgence to a natural, spiritual, harmonious and in fact necessary for a restorative experience.

Ancient therapeutic traditions of Asia view the body as capable of healing itself by treating the body, mind and spirit as fundamentally one — balancing the flow of ch'i.

XOLEIL SPA VILLAGE treatments take you on an exotic journey across the rich heritage of ethno-wellness traditions of Indonesia; the birthplace of countless natural beauty remedies, rituals and secrets.
